Career Objective

To begin my career as a Cloud Engineer / DevOps Engineer in a dynamic and growth-oriented organization where I can apply my knowledge of AWS cloud services, containerization, Linux administration, and automation tools to build scalable, secure, and efficient cloud infrastructure. I aim to contribute to the organization by deploying reliable applications, optimizing cloud environments, and implementing modern DevOps practices.

I am eager to continuously enhance my skills in cloud computing, container orchestration, CI/CD pipelines, and infrastructure automation, while working collaboratively with development and operations teams to deliver high-quality solutions. My goal is to grow as a cloud professional while contributing to the organization's technological advancement and innovation.

PROFILE SUMMARY

- Cloud Engineer fresher with hands-on experience in deploying 2-tier and 3-tier cloud applications on AWS using modern DevOps practices.
- Strong understanding of **cloud computing concepts**, **Linux administration**, containerization, and **cloud** infrastructure management.
- Experience working with **Docker** and **Kubernetes** for containerization and orchestration of scalable applications.
- Familiar with AWS services such as **EC2**, **S3**, **IAM**, **VPC**, **Load Balancer**, and Auto Scaling for building secure and scalable cloud environments.
- Knowledge of **Linux system administration and shell scripting** for automation and server management.
- Understanding of **DevOps principles**, **CI/CD** concepts, and **Git-based source code** management.
- Hands-on experience deploying applications using containerized environments and cloud infrastructure.
- Strong problem-solving skills, quick learning ability, and enthusiasm for adopting new **Cloud and DevOps technologies**.
- Passionate about building reliable cloud infrastructure and continuously improving deployment automation.
- Created custom **VPCs**, managed **public/private subnets**, **NAT gateways**, and peering connections

TECHNICAL COMPETENCIES

SCM Tools	Git, GitHub
Database	RDS (MySQL 8)
Scripting Language	Shell Scripting, YAML, Python
Operating Systems	Linux - RHEL, Amazon AMI, Ubuntu, Windows
CI/CD Tools	Jenkins, GitLab CI/CD, GitHub Actions
Cloud Services	IAM, EC2, VPC, S3, RDS, ECR, EKS, Secrets Manager
Monitoring	CloudWatch, CloudTrail, Grafana, Prometheus,
Servers	Apache, Tomcat, Nginx, Postman, Route 53 (DNS)
DevOps Tools	Argo CD, Terraform, Kubernetes, Maven, Docker, Docker Compose, Jenkins, Git, Postman
Networking & Security	TCP/IP, SSH, VPC, ALB, DNS, IAM, Firewalls
AI & ML	ChatGPT, GitHub Copilot, Generative AI, Vertex AI,

TECHNICAL PROJECTS

Static Website Hosting with CI/CD | AWS, S3, CloudFront, GitHub Actions

- Deployed a highly available static portfolio website using **Amazon S3** and **CloudFront**.
- Implemented an SSL certificate via **AWS Certificate Manager** for HTTPS.
- Automated the deployment pipeline using **GitHub Actions**, ensuring site updates reflect instantly upon code push.

[2048 Game Deployment using Kubernetes Ingress](#)

- Deployed containerized 2048 game application on Kubernetes cluster
- Created Kubernetes **Deployment and Service** for application exposure
- Implemented **Ingress resource** to route external traffic to the service
- Configured load balancing and HTTP routing for public accessibility
- Practiced Kubernetes networking concepts including **Ingress controller and service discovery**
- Verified application availability using cluster DNS and browser access

Three-Tier Web Architecture | VPC, EC2, RDS, Auto-Scaling

- Designed a custom **VPC** with public and private subnets across multiple Availability Zones.
- Deployed a web server on **EC2** with an **Application Load Balancer (ALB)** and **Auto-Scaling Group** to handle traffic spikes.
- Managed data persistence using **Amazon RDS (MySQL)** in a private subnet.

EDUCATION

Bachelor of Computer Application, SGBAU, Amravati | 2026

PERSONAL INFORMATION

- Name: Hariom Shivcharan Lokhandkar
- Gender: Male
- Language known: English, Hindi and Marathi
- Place: Pune

CERTIFICATIONS

- [Oracle Cloud Infrastructure 2025 Certified Generative AI Professional](#)[AWS Certified Cloud Practitioner](#)
- [Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate](#)
